Welcome to ATW 2026

On behalf of the Organizing Committee, it is our great honor and privilege to invite you to Asian Transplantation Week 2026 (ATW 2026), to be held from November 12 (Thu) to 14 (Sat), 2026 at BEXCO in Busan, Korea.

Hosting this year's ATW in Busan marks a meaningful step forward in its continued growth. Guided by our theme, *"From Legacy to Leadership: Shaping the Next Decade of Transplantation,"* ATW 2026 aims to build upon the strong foundation of past achievements while advancing innovation and leadership for the future. In line with this vision, this vibrant coastal city will provide a dynamic and inspiring setting for deeper engagement and collaboration among colleagues from around the world.

ATW has firmly established itself as a premier platform for transplantation professionals across the Asia-Pacific region, advancing both clinical excellence and scientific innovation through active exchange and collaboration.

Endorsed by The Transplantation Society (TTS), ATW 2026 further reinforces its global standing and academic excellence. This year's program will feature the Transplantation Science Symposium (TSS), along with a series of joint symposia with the European Society for Organ Transplantation (ESOT) and leading societies from Malaysia and Thailand. In addition, the Asian Collaboration Symposium will further position ATW as a central platform for advancing collaboration across the Asia-Pacific and beyond.

The Organizing Committee is dedicated to delivering a truly top-tier scientific program, featuring distinguished experts and the latest advances in transplantation.

It will be our great pleasure to welcome you to Busan this November, and we look forward to sharing a meaningful and memorable ATW 2026 with you.

Sincerely,

Myoung Soo Kim
Congress President
ATW 2026

Beom Seok Kim
Chair, Organizing Committee
ATW 2026
